It is a great honor for me to articulate and introduce the “Annual Policing Plan 2024-25” of District Rajanpur. The targets and the goals of the District Police during the coming year are given in the plan as well as priorities and mechanisms to achieve these targets are also mentioned in this plan. This plan is the result of collaborative efforts of all officers, officials and staff of the District Police and I believe that the set targets and goals will be achieved by collaborative efforts.

It is a reality that in the current scenario of socio-economic crisis, the responsibilities of the Police have increased manifold. This is the reason that police service is now challenging. In spite of the challenges, District Police Rajanpur is setting high standards to tackle heinous and organized crime. For this purpose, it would be primary focus of District Police to protect the people from any threat of life and property by adopting preventive approach.

Eradication of social evils is also included in the basic responsibilities of Police. We are determined to vanquish all social evils that are causing deterioration of society.

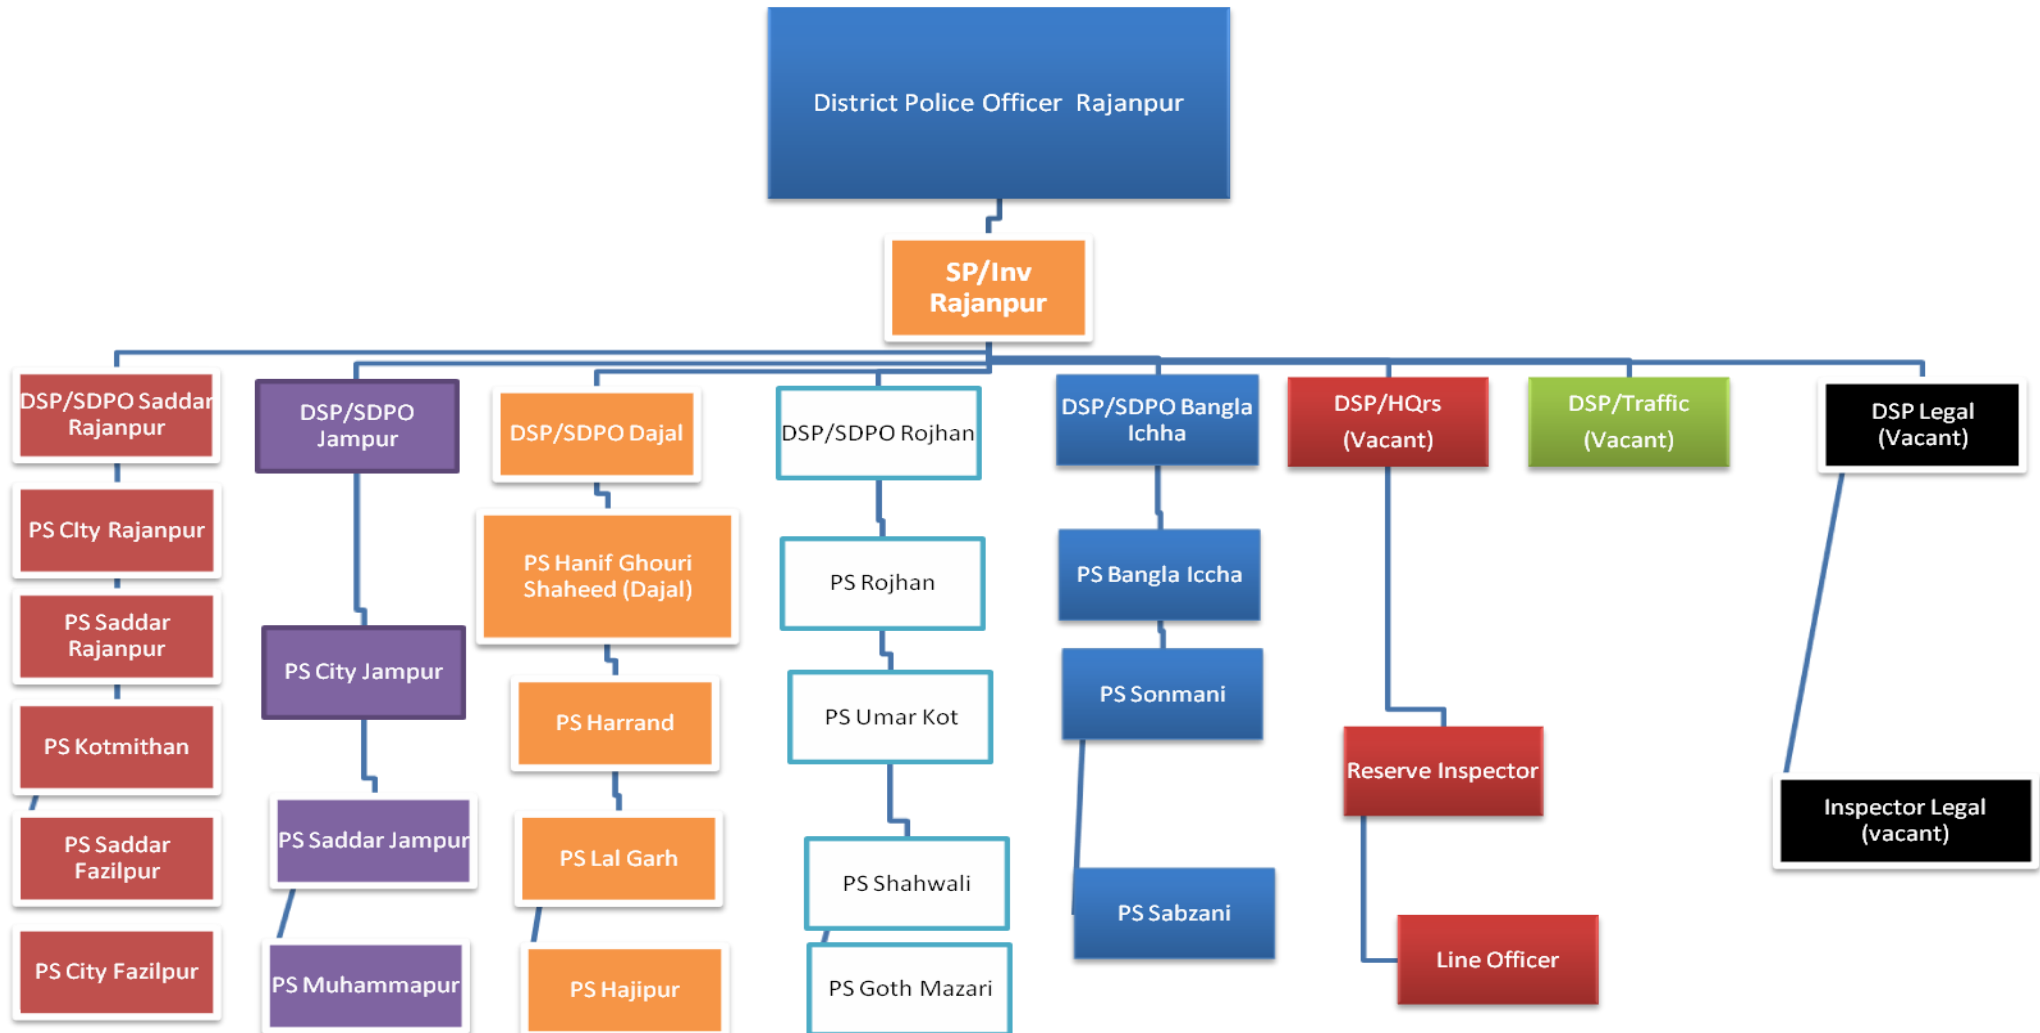

At the end, I am proud to be member of this prestigious organization. I am also proud of the officers, officials and every member of District Police. I also pay tribute to the martyrs of the Punjab police who sacrificed their lives in the line of duties and earned reverence and respect for the department. I am looking forward to working with my team in the coming year to keep the lives and properties of the people safe.

(i) Introduction

Article 32(4) of police order 2002 enunciates that head of District police shall prepare an annual plan, in which details regarding objectives of District Police, Availability and utilization of financial and material resources during the year, targets as well as mechanism to achieve the targets are to be mentioned in the plan. District Annual report plays a pivotal role in decision making, management of human resource, material, policy formulation and other activities carried out by District police in pursuance of its objective i.e, protect lives and properties of its citizens. As it is truly said by veteran American author and radio speaker Earl Nightingale that *“All you need is the plan, the road map, and the courage to press on your destination”*, similarly roadmap is very necessary to set the targets and to get those targets accomplished with collaborative efforts. In compliance with the statutory requirement, the Annual District Plan 2024-25 is articulated after thorough deliberation and keeping in view the forthcoming requirements of the district police. The prime and utmost objective of Rajanpur Police is to provide not only protection but sense of protection to citizens by adopting proactive policing approach. Arresting the perpetrators and Proclaimed offenders in furtherance to get them scrutinized by investigation process of police and send them to courts of law alongwith collected evidence so that such persons may be convicted by courts of law and society may be protected from such ill minded criminals. It is always required by the governments and the civil society that police culture at police station level should be changed and it should be people friendly and polite. Strategies to make police, as a public friendly organization are also included in the priority list of this District. For accomplishment of desired goal, resources are inevitably required. The calculation of required resources has been carried out, which is included in the plan 2024-25. The same plan is being submitted to the competent authority for its approval, please.
