ORGANIZATIONAL SET-UP OF POLICE IN SIALKOT DISTRICT

INTRODUCTION

The importance of policing in present days rapidly changing environment calls for increased and efficient service to the people hence provision of appropriate security cover cannot be under estimated. Police performance today is being assessed, evaluated, and analyzed by the demanding public and critical media. Therefore, it is essential that the traditional methods of policing should gradually be replaced by scientific and organized study of crime and in accordance with needs and expectations of the society. This paradigm shift in attitudes and methods is only possible if policing is not haphazard or wayward but is based on a well considered plan focused on measurable targets along with the action plan to achieve the specified objectives.

Police Order 2002 has made it mandatory for the Head of the district police to chalk out annual policing plan in the light of prevalent crime and visible trends by setting up measurable goals and objectives. It clearly determines priorities that shall be addressed during the next twelve months. These priorities have been set while taking into consideration a wide ranging agenda for the district police with the aim of providing improved service for making Sialkot district safer for the people.

Our aim is to attain excellence for the Sialkot police by establishing rule of law, ensuring human rights, and providing relief to the citizens against the activities of the criminals. These objectives cannot be achieved by the police effort alone unless it is supplemented by wielding a meaningful Police-public co-operation.

With limited resources, the Sialkot police is striving to deal with multifarious problem and given the needed resources it will give a better result of its performance during the next twelve months by providing better service delivery to the people and controlling increasing incidents of crime.

MESSAGE FROM THE DISTRICT POLICE OFFICER

“If we are to achieve, we must look for the opportunity in every difficulty instead of the difficulty in every opportunity.”

According to the prevailing situation, there is dire need to overhaul police infrastructure/system. In this regard, new avenues, plans and strategies have been drawn in pursuance of police order 2002 to achieve desired objectives and targets.

As a matter of fact, things are moving pretty fast in our modern and scientific world but I have tried my level best to incorporate all the latest developments in policing plan 2019-20. It is the plan to improve the quality of policing. It not only enables the local police to chalk out roadmap for next year policing priorities but also contains elements such as being

sensitive to public requirements, incorporating their felt needs in the plan. So it covers whole range of issues from organizational planning, to community participation and public oversight.

Much like the previous policing plans this one is also citizen focused document aimed at improving the quality of policing services through better and efficient administration and establishing closer contact with the local community.

It gives me great pleasure that the District Police Sialkot will be able to achieve the targets in the current policing plan through dedication, devotion and commitment seeking guidance and active support from all segments of society including CPLC & organizations working for the welfare of the public.

Our motto is:-

"Live to serve"
